

Informal economy workers and their technological challenges during the pandemic

This parallel event will provide an opportunity to hear directly from women workers leaders from different sectors – street vendors, home-based workers, waste pickers and domestic workers – on how they adapted and used digital tools during the pandemic. Network leaders will share their experiences, lessons learned, and the types of technologies most useful to their work.

This event will be in English, Spanish and Portuguese

67th Commission on the Status of Women

08:00 - 10:00 EST
